

Give to Headway East London through your pay

Employee Information Sheet

In the UK there are close to 350,000 admissions to hospital every year for brain injury; 40,000 of these are in London. Causes include road traffic accidents, falls and stroke. **It is estimated that there are at least 100,000 people in London coping with the long term effects of a severe brain injury.**

Headway works with over 500 brain injury survivors and their families each year, offering a range of specialist services for this complex client group. Headway is the only provider of its kind in inner London. We work across 13 boroughs, including many of the poorest in the UK. Our work is dedicated to improving the prospects of survivors and helping them discover roles that help them regain self-esteem while contributing to the wider community.

You can help us reach out and support more brain injury survivors by donating to us directly from your salary through a payroll giving scheme.

Billy has been a member of Headway East London for three years after surviving a stroke in 2012

"I first heard about Headway East London while in neuro rehab at the National Hospital for Neurology and Neurosurgery. My social worker identified it as a place at which I might thrive after discharge. I've now been attending for almost three years. I was full of anticipation and a bit scared when I first came to visit because I do not generally feel comfortable in group situations. But I was very quickly sold on its brilliance and have been very happy ever since. It is a clam and safe ship in a stormy sea. It's important for people to get involved with Headway and support us because it is inspirational. There are lessons to be learned here for all citizens, not just the ones made vulnerable through brain injury."
